re: Case No 25-11492

- Externuating circumstances,
Requesting a reshard of
13.

- At outset of Ch. 13, in May,
I cut my finger off, requiring
surgery, on nerves and tendons
of my left hand. It
inhibited my ability to
earn a living. I am just
now healthy again.

- Additionally, I have two elderly parents who have suffered health setbacks simultaneously, requiring my assistance. Stretching an already thin bandwidth, even thinner.

- Any understanding with regard to these atypical situations would be appreciated and serve to open the path to financial recovery for me.
